

Builder Costs in Residential Construction

Friday, October 6, 2017

8:00am to 4:30pm (1/2 Hour Lunch Provided)

Spearfish Holiday Inn Convention Center

I-90 Exit 14 605-642-4683

8 Hours of CE Credit for \$75!

Lunch and Breaks Included in the Class Fee

Presented by

PAASD AND BH HOME BUILDERS ASSOCIATION

Thank you to our Additional Sponsors for lunch and breaks who will be acknowledged during the class.

This offering will focus on the costs of residential construction including upgrades in materials, workmanship, millwork, doors, mechanical equipment, floor coverings, cabinets, countertops, exteriors, roofing, windows, etc. Black Hills housing industry professionals will present different segments of the seminar.

The time spent in the class will help you to be more familiar with the costs of today's construction. If you don't know what something costs, it is difficult to accurately determine its contributory value in the sales approach.

The course will also highlight the differences between 'cost' and 'value', a discussion led by Craig Steinley, SRA, AI-RRS.

Register for the class at:
