See the registration page for more details about this seminar at www.paasd.com

We've all heard the advice "Don't put all your eggs in one basket." The same can be said for a professional appraisal practice: Don't perform only one type of appraisal work for only one type of client. In many cases, appraisers – **both residential and general commercial** – provide merely one type of appraisal: appraisals for lending clients. However, appraisers can expand their appraisal practice by offering other types of appraisal services.
